WINE NEWS
Take a pinotage bath

Thu, 17 Jan 2008

Ever dreamt of taking a bath in your favourite Cape red? Now you and your partner can enjoy a wonderful, relaxing and revitalising Pinotage bath in the middle of the vineyards with all the luxurious extras. Just get yourself undressed!

Keeping to their philosophy of great attention to detail, as well as a fresh, exciting and innovative approach to wine and architecture, Mont Destin Wines have created an experience not to be missed — a Pinotage bath in Mother Nature au natural.

The idea was born when Ernest Burgin — owner of this unique African inspired winery on the doorstep of Stellenbosch — wanted to buy his wife, Samantha, something out of the ordinary.

He found a bin of Pinotage while rearranging the cellar and instantly knew he had discovered the perfect gift — a bath in this wine amidst the vines. A bath was thus bought and installed next to a lapa surrounded by vineyards.

This vino experience involves soaking in a heady mix of Pinotage and warm water, to create an intoxicating and sensual experience. Extras include a bottle of double gold award winning Pinotage, glasses, towelling gowns, towels and... a heated mountain shower!

The Pinotage soak is guaranteed to leave the skin wonderfully soft and silky, to liberate the mind and to make you feel good about yourself and your body.

It costs R1500 per couple and is the perfect gift for the one you love.

For more information about the Pinotage bath, contact Mont Destin on +27 21 875 5870.
